About AIWF

President Message

Ansar ul ilm foundation (AIWF) is non government, non commercial charity organization laid down in December 2011 with an objective of helping poor living in the vicinity. Usually help is considered one time activity with narrow scope of results. The founder members of AIF decided to go beyond help i.e. to uplift the deprived till their self sustaining . Providing free education of equivalent standards to their children with grooming, based on Islamic ideology was the idea conceived and opted then unanimously by the founder members of AIWF for execution. Alhamdulillah the intention of serving humanity with sincerity paid a lot to procure early success. Now the three founder members are strengthened with several devoted members contributing their valued services with sincerity. And recently AIWF got approved from ministry of population welfare government of Pakistan. AIF school was founded 5 years ago under the umbrella of AIWF to meet our target. AIF School is providing 100% free education with the standard prevailing in medium to high class schools. The grooming of the students is ensured through Islamic ideology, modern techniques and by engaging in extra curriculum activities. Our success is quite obvious today Alhamdulillah. All designators and members are working with an exclusive motif of service with sincerity for raza-e-elahi only, and are not taking and financial advantage or social projection out of this project . We look forward to you as well to join hands in this charity with whatsoever source you have be it financial, physical or moral.

Five years journey from Class KG to Class 5th now gave pride to the donors and members of the AIF School. The success is phenomenal and achieved through cumulative efforts of the teachers and the management. Spreading smiles on the faces of many oppressed families is transforming mental satisfaction to all those who are part and parcel of this project. Positive role of the civil society is showing a great deal of solidarity toward uplifting of literacy among underprivileged segment of our society.

Providing quality education is as tough as to build a mahal from scratch especially to the families being dealt with. However, Allah is always providing HIS guidance and this caravan is moving steadily towards its mission. Achieving financial target always looked un-achievable every year but in the end we met our targets quite comfortably. As we see more aggressive challenges ahead of us, we expect same response from our donors. We are very thankful to all those who are continuously helping us financially, morally, physically or ideologically. We pray to Allah Almighty to strengthen us and give us courage in carrying over this project towards the next step ahead and to give the best rewards to all those who remains with us

“Our Vision

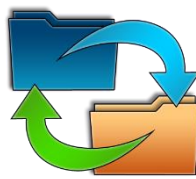

is to contribute national efforts of uplifting literacy rate by establishing schools at community level catering quality education & grooming to the children of deprived families, aiming at to develop them useful citizen of Pakistan”

“Our Mission

is to establish elaborated system of AIF schools at community level by mobilizing the charity will of the privileged, professional & passionate individuals who envisage social justice in our society”

Our Core Values ...
